

Seyed Morteza Mortezaie

## Full Stack JavaScript Developer

+ 98 (936) 253-2122 • [email](#) • [linkedin](#) • [github](#) • [stack](#)

### SUMMARY

---

As an experienced JavaScript developer, I excel in developing web applications using **VueJS** and **NuxtJS**. My expertise extends to backend development as I possess a solid understanding and working knowledge of **NodeJS**, **NestJS**, and Express.

My passion for **software architecture** design and **microservice** motivates me to constantly strive for excellence in creating **scalable** and **high-performance** applications. With a keen eye for detail and a deep understanding of the latest trends, I am confident in my ability to develop effective solutions that meet clients' needs. As a person who is always eager to learn and grow, I am excited to continue my journey in the technology industry.

### PROFESSIONAL EXPERIENCE

---

#### DEZHAFZAR Co

Tehran, Iran

*Reputable Manufacturer of Network Security Equipment*

##### Full-stack Developer [ remote ]

APR 2022-Present

- Built RESTful APIs and integrated third-party APIs to create seamless user experiences.
- Developed secure and reliable authorization and login system based on best practices in Vue.js 3, ensuring user data privacy and confidentiality.
- Designed and developed the front-end of a new product by implementing cutting-edge technologies like Vue 3, composition api, typescript and Element-plus UI framework in a short time.
- Designed and developed a new menu for a large-scale legacy php project using Vue & iframe in just 2 weeks, resulting in improved user experience.
- Self-studied backend languages such as PHP and Python (Django) during spare time of working hours.
- Facilitated bug fixes by troubleshooting existing code and implementing updates accordingly.

#### INNATE IT GMBH

Vienna, Austria

*A software company specialized in wholesale and distribution web-based solutions.*

##### Front-end Developer [ remote ]

Feb 2021 to Mar 2022

- Developed panels for two products utilizing cutting-edge technologies such as Nuxt.js, TypeScript, Property Decorators and Vuetify.
- Optimized components for maximum performance across different browsers and devices.
- Collaborated with backend developers to integrate front-end tasks into their systems such as Api's and third party integrations using restful services.
- Attended weekly team meetings to stay current on project progress and provide updates on completed tasks.

#### PART-TIME FREELANCER AND INSTRUCTOR

Arak, Iran

##### Front-end and Backend Developer

2021-PRESENT

- Developed company website using NuxtJS, Tailwind, and Typescript with Property Decorators for efficient implementation.
- Implemented Strapi framework and GraphQL to generate secure and unified endpoints for data access.
- Successfully instructed 5 university students in Vue.js, covering topics such as components, data-binding, and routing.

### SKILLS

---

JavaScript | Typescript | Nodejs | Nestjs | Expressjs | Unit Testing | Jest | SQL and No-SQL DataBases | MongoDB | MYSQL | TypeOrm | Software Architecture | Microservice | RabbitMQ | OOP programming | Vuejs (2,3) | Nuxtjs(2,3) | Pinia | Vuex | Vuetify | Element-plus | Python | PHP | Rest API | CSS | SCSS | Bootstrap | Tailwind | PWA technology | Git | Gitflow.
